

eMaintenance[®]

Additional Options

Premier eMaintenance

A dedicated staff of professionals provides a level of support that goes above and beyond regular troubleshooting and problem resolution of the standard support plan. Our quality-driven support staff will help you streamline your Maximo[®] environment to your business needs while resolving problems quickly.

Premier services available Include:

- Your own tailored eMaintenance technical environment
- Default use of your own custom work order or purchase order - no more extra steps to print your custom version
- Your logo on the eMaintenance entry page
- Screen and report modifications
- Automatically scheduled PM generation
- One seat in every in-house Projotech training class, subject to availability

Web Requestor Page

- Allow your customers to enter work requests from a customized screen developed by Projotech
- Automatically create work orders in the Maximo database, without the need for separate user id's for every requestor
- Include a link to your web request page on your own intranet for easy access

Maximo Project

- Maximo interface to send work orders to Microsoft Project on our server
- Take advantage of the planning and scheduling features of Microsoft Project, and still track the history in Maximo

Maximo Automated Information Delivery (MAID)

- Automatically schedule routine reports to run and be delivered to your email box
- Delivery to distribution lists
- Reports may be in Word, Excel, or Acrobat .pdf format
