

## Training Syllabus

---

### Navigation and Querying in IBM Maximo 6

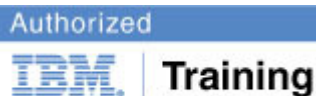

*This half-day course teaches you how to navigate Maximo 6. You will learn common navigation and data-access techniques used throughout all Maximo 6 applications. After taking this course, you should have the basic skills necessary to navigate and conduct queries in the various Maximo applications. The goals of this course are to teach you how to Navigate to and within Maximo 6 applications, search for records and work with result sets, access KPIs and reports and customize your Start Center.*

This course includes the following topics:

1. Functional areas within Maximo 6
2. Self-registration
3. Working with user profiles
4. The Start Center
5. Navigating in Maximo 6
6. KPIs and reports
7. Navigating hierarchies
8. Database basics
9. Searching for records
10. Filtering records

Upon completion of this course, students will be able to:

- Self-register in Maximo 6
- Work with user profiles
- Customize the Start Center
- Navigate within and between applications

- Access KPIs and reports
- Navigate hierarchies
- Search for records
- Work with result sets
