

Training Syllabus

Maximo® 7 Asset Management

This is a two-day class that provides an overview of Maximo's capabilities for examining asset management applications. This includes Locations, Assets, Failure Codes, Meters and more. Intensive use of hands-on exercises using a fully populated Maximo installation will provide the student with practical experience.

*This course contains information on applications and functionality for all Maximo 7 versions including Version 7.1, 7.2 & 7.5. Subject marked * are specific to Version 7.5 and may be included or excluded as needed.*

Prerequisites

Maximo 7 Basics - Navigation and Query
