

Training Syllabus

Maximo® 7 Inventory Management

This is a two-day class that provides an overview of Maximo's capabilities for examining Inventory applications. This includes Issues and Transfer application, Condition Codes, Tools and Stocked tools and more. Intensive use of hands-on exercises using a fully populated Maximo installation will provide the student with practical experience.

*This course contains information on applications and functionality for all Maximo 7 versions including Version 7.1, 7.2 & 7.5. Subject marked * are specific to Version 7.5 and may be included or excluded as needed.*
