PROJETECH INC. JOINS THE 2007 FACILITIES TRADE SHOW IN TOLEDO, OH

Cincinnati, OH, February 21, 2007 — Maintenance and reliability professionals attending the 2007 Facilities Tradeshow in Toledo, Ohio at the Erie Street Market on March 6, 2007 will have an opportunity to interact with Projotech, Inc. - a certified Maximo® reseller and leading service provider of strategic asset and service management solutions.

Projotech specializes in helping companies of all sizes control costs and improve efficiency through effective management of facilities, equipment, transportation fleets, maintenance personnel and IT assets.

"We are excited to reach out to facilities professionals at this conference," says Projotech Marketing Associate Jeanne Cost. "This will be a perfect way to spread the word that we offer many solutions for their needs including 6/MXES software."

Maintenance and reliability professionals will also have an opportunity to learn more about Projotech's proprietary eMaintenance® web-based service, Maximo 6/MXES software, and Maximo training and consulting support.

"Our goal is to help maintenance and reliability professionals improve efficiency by training them how to maximize the use of all the tools Maximo offers," says Steve Richmond, President and CEO of Projotech. "I've discovered that once you've learned how to effectively use Maximo, it will increase your efficiency and help you become more effective in your work."

About Projotech

Projotech provides asset and service management solutions through their proprietary eMaintenance web-based service, as well as Maximo training and consulting. Projotech is an IBM/MRO Software Channel Partner and sells licenses for IBM/MRO Maximo 6/MXES Software.

Projotech enables maintenance and reliability professionals from companies of all sizes to control costs and improve efficiency through effective management

of facilities, equipment, transportation fleets, maintenance personnel and IT assets.

Established in 1990, Projotech has assembled a focused staff of industry experts to support maintenance and reliability professionals throughout North America.
